Standard Lengths:

- 20ft, 25ft & 30ft
(6.1m, 7.6m & 9.1m)

Temperature Handling:

Range: -40°F to 200°F
(-40°C to 93°C)

Application:

AvroDuct™ is a flexible, portable and durable fully-welded air duct engineered to efficiently deliver pre-conditioned air (PCA) from climate control ground equipment to parked aircraft.

Available Diameters:

- 8-inch, 12-inch & 14-inch
(203mm, 305mm & 356mm)
- Call for other available diameters

Colors:

- Hi-Visibility Yellow
- Call for other available colors

Features & Benefits:

- The AvroDuct™ body is constructed using a Tuff-Coat insulated reinforced fabric. This three-ply composition provides exceptional insulating properties, air-flow performance, abrasion resistance, durability and flexibility.
- AvroDuct™ is engineered to provide thermal and refractive insulating properties.
- Product is manufactured using welded technology to prevent air-loss and improve efficiency. AvroDuct™ is well suited for commercial air-pressure and for special high pressure applications.
- AvroDuct™ is available in layflat and spiral wire reinforced configurations.
- Materials are fire retardant (self-extinguishing) and provide enhanced resistance to UV rays, mold and mildew.
- Manufactured with hi-visibility yellow fabric.
- A PVC extruded wearstrip is attached around the duct body to further enhance abrasion resistance.
- Standard end finish includes our AvroDuct™ coupling.
- Consult factory for other end finish options.
