

U.S. AIRMOTIVE GSE

GSE - AvroDuct™

BENEFITS:

- The AvroDuct™ product line provides a uniform system for PCA ventilation.
- Designed to provide consistent quality and construction for all airport fixed base or portable PCA applications.
- Whether using AvroDuct™ Layflat, Spiral wire reinforced, insulated or non-insulated the coupling is uniform and capable of adapting to other couplings in the industry.
- Contact US Airmotive GSE for material specifications, technical drawings and data.

Diameter	Layflat Weight (approximate values)	Wire Reinforced Weight (approximate values)
8 inch / 203mm	1.00 lbs/ft (1.44 kg/m)	1.20 lbs/ft (1.75 kg/m)
12 inch / 305mm	1.26 lbs/ft (1.87 kg/m)	1.46 lbs/ft (2.17 kg/m)
14 inch / 356mm	1.47 lbs/ft (2.17 kg/m)	1.71 lbs/ft (2.52 kg/m)
